To ensure that you have a pleasant experience please follow a few simple rules which are nothing new and are standard throughout the world.

If you are unsure of something please ask for clarification, never assume!

- ✓ Remember a quote is a not a confirmation and that stock cannot be guaranteed unless you receive a confirmation in writing from our reservation system (SOMS).
- ✓ Please do not make a payment into our account and expect your order to be confirmed, we must receive written confirmation of your order, preferably by e-mail.
- ✓ As with airlines and car rentals world wide, you need to ensure you check your quote, **confirmation**. Once you accept a quote and confirm, we cannot be held responsible for incorrect information. It is always best to double check and ensure that everything is listed that you ordered.
- ✓ We love our furniture and we would ask you that you treat it as you would treat your own.
- ✓ We do not like charging clients for damages or losses, but in order for us to maintain our standard and sustainability (big word but necessary) if furniture is not returned in the same condition as it was received from us, we will have to repair and maintain it. We need to charge the person or company responsible as we have no control over the furniture once it has left our possession.
- ✓ Therefore please always ensure you check the furniture when receiving it. Once you have taken it, you or your company is responsible for all damages and losses. This is what they call common law and it is no different anywhere in the world.
- ✓ We prefer not to get into discussions and waste your time about how items where damaged whilst in your hands. We were not present, and we would therefore not be able to explain this. Unfortunately, we are not able to afford physic people, so we are not qualified to advise you how the furniture was damaged whilst in your possession. If you are concerned that you will not be able to explain damages and losses, we will gladly rent out one of our staff members to stay with the furniture at all times.
- ✓ We therefore apply a basic principle, return the furniture in the same condition as you received it.
